THE ESTIMATOR

One job, every cost.

YOUR ESTIMATE

School hats · job 101

48 items · 8,500 stitches per item · 6 active head(s)

$926.88

suggested quote before tax

Per item
$19.31

Production time
4.1 h

Gross margin
45.0%

Machine cycles
8

Where the cost goes

Goods	$363.38
Labor	$68.49
Machine	$15.08
Overhead	$20.70
Digitizing	$30.00
Shipping	$12.00

$417.22 estimated gross profit · $509.66 estimated cost

Sequential work estimate: setup + stitching + handling, with your buffer. Taxes and payment fees are excluded. Spoilage covers materials only.

Job and shop assumptions

Quantity	48
Stitches per item	8,500
Active machine heads	6
Stitches per minute	850
Run efficiency (%)	85
Target gross margin (%)	45
Color changes per cycle	3
Seconds per color change	5
Break seconds / 1,000 stitches	15
Setup seconds / job	245
Hoop seconds / item	40
Unhoop seconds / item	15
Finish + pack seconds / item	32
Handling operators	1
Time buffer (%)	33
Labor cost / hour ($)	22
Machine cost / hour ($)	8

Other overhead / hour ($)	5
Blank cost / item ($)	7
Materials / item ($)	0.35
Digitizing cost / job ($)	30
Shipping cost / job ($)	12
Materials spoilage (%)	3

Internal planning estimate. Verify these assumptions against your shop’s actual production before sending a customer quote.
